

White For Life® Tile and Grout Cleaner

Description

Selleys® White For Life® Tile And Grout Cleaner gently cleans tile and grout surfaces. It is part of the Selleys® White For Life® Tiling System. Regular use makes cleaning quicker and easier. It helps reduce soap scum build-up without etching into the grout surface, thereby enhancing the White For Life® Grout resistance to yellowing, staining or blackening, when used as a system and as per pack directions*.

Product Information

Packaging	Size
Trigger Bottle	750 mL

Uses

Selleys® White For Life® Grout Sealer is ideal for bathroom, shower, toilet, laundry, and kitchen. It is suitable for glazed ceramic and porcelain tiles, grout, shower screens, baths, tubs, toilet bowls, splash backs, sinks, taps and stainless steel surfaces.

Technical Features

- Alkaline cleaner
- Cuts through and removes soap-scum and soil and minor efflorescence
- Enhances grout resistance to yellowing, staining and blackening*
- Reduces the time and effort required to clean the surface next time
- Contains no abrasive, harsh acids or bleach
- Helps to restore the luster of grout and tile

Technical Details

Property	Typical Result
Appearance	Clear pale yellow liquid
pH	10-11

How To Use

Directions

Do not swallow. Avoid contact with skin & eyes.

Application

1. Turn nozzle to spray position and spot test on small inconspicuous area to ensure compatibility.
2. Spray onto surface and leave for 1 – 2 minutes.
3. Wipe with a damp cloth or sponge, and then rinse thoroughly with a wet sponge. Wipe dry with a paper towel from glass, shower screens, sinks, taps etc, before surfaces dry, for a streak-free finish.
4. For stubborn grime apply again, leave for 3 - 5 minutes, and if required use a scourer suitable for the tile surfaces being cleaned, then rinse thoroughly again.

Handy Hints

*Clean grout and tile surfaces regularly with Selleys® White For Life® Tile & Grout Cleaner to avoid build-up of soil & soap scum and enhance White For Life® Grout resistance to yellowing, staining & blackening. If used on other grouts, this product will clean but may not be able to restore/maintain whiteness.

Grout must be fully cured before using Selleys® White For Life® Tile & Grout Cleaner on it.

For heavily contaminated areas with mould or mildew, use Selleys® Rapid Mould Killer.

Always follow up with a clean water rinse after cleaning tiles and grouts. Rinse immediately and wipe dry with a paper towel from copper, brass, aluminum, plastic and painted surfaces.

Do not use in conjunction with or immediately after any chemical or bleach or any other detergents or cleaning products.

Avoid leaving the product in prolonged contact with tiles or with sanitary ware such as shower screen, sinks, and taps and so on.

Storage

Store in a dry place below 30°C. Use within 6 month of opening. Do not allow to freeze.
